

The outdoors is an exciting, inviting place to be experienced and shared. Along with the experience comes personal responsibility for our actions and conservation of nature. We must become stewards of our environment which is most certainly character building. These things are a big part of what scouting teaches.

We want people to go outside and get the most personal fulfillment as possible. To make the experience more enjoyable, Rendezvous makes a point to offer products that keep people safe, warm, and dry.

Outdoor enjoyment and personal fulfillment go hand in hand with Rendezvous, and with scouting. In an effort to make the outdoors and the required products accessible to more scouts, Rendezvous offers a 10% savings on any purchase greater than \$10 to assist in the ownership of specific outdoor gear (see list below) for scout use. All you need to do is bring proof of your current scout membership. Enjoy the outdoors in comfort and security.
